

Expert Project Assignment #3

Thursday, September 20, 2018

- Complete "Evaluate Your Books" on the books you have checked out and any other books you think you will use.
- Record the ones you will use on your working bibliography sheet.
- Choose **at least** one book that you will enjoy to begin reading. Read through it (or a few chapters of a longer book), and place sticky notes at places where you find something interesting that makes you wonder about something else. On the sticky note, write the question you have. It takes time to be thinking and evaluating what you read. Be sure you leave yourself time to be thoughtful about your questions. You will use the questions next week and throughout the year.
- Bring your tabbed book(s) to school with you for next week's meeting.

Due Thursday, September 28, 2018
