

So this Friday, we had to do a lot of things today because of Specials. And what we had for Specials was Computer Lab, then Art, Music and lastly was P.E. When we go to Computer Lab, we go to our seats, sign-in and wait for the computer teacher to tell us where to go. She told us to do Typing.com; and that's where we learn to use the keyboard and how to use it the correct way. And then, when we're done with computers, we grab our lunches, line up and walk in a line to art. When we first enter the art room, we put our lunches down in a certain spot so they're not in the way. Then we go to our spots and she tells us what we can work on, like a Chinese fan or a drawing of a Japanese woman. And so I did the Chinese fan and it was fun. After art is done, we go to lunch. Also we eat outside for lunch and play a little; then we line up to go inside for music. For Music today, we played the recorders and it was a bit squeaky. But I guess it was ok. When we got done with the recorders, we washed them so we don't get sick. And then we went to P.E.. I wasn't able to do P.E. today because I didn't feel well. We lined up after P.E. and grabbed our lunch boxes. We got papers to take home and we were released to go home. I got my stuff and went home. I had had a great day.

The End
