

Student Blog Writing  
By Emmy Noyes

### **Freedom's Light**

We had our first field trip of the year. We learned about the constitution. It was written for government, freedom, and our rights. It was made after the Revolutionary war. We were told lots of stories. There was Ben Franklin, he became vegetarian so he could pay for book's, he was very smart because of those book's. It was a very interesting learning experience.

### **Works I've done**

In class we also learned how to do cursive, stamp game, alphabetizing and a lot of others but so far they are my favorite works. My favorite book is The people you may meet, because it gives you good information about accepting differences. My favorite math is pathagerest board because it soothes me, I like multiplication. My favorite language work is cursive because it's like learning a fancy language. My favorite map is the U.S.A. map because you get to learn where everything is.

### **Quotes and Notes**

Quote is very important because its inspirational. Note is also important because we learn about the past . My favorite hand work is sketching because I love art. I also learned how to make a timeline. And on friday we do typing and learn how to type.
