Team Challenge Guidelines:

- Teams will work together to complete daily challenges, and all work will be turned in at the end of the class for assessment in Mastery Connect.
- Some of the items completed in your work will be scored for points. At the end of each class, all team scores will be tallied.
- If you have absent team members, they will be expected to do the work for the day alone and hand it in as make up work. However, their work will not be counted in your team point totals. The work will be assessed and put into Mastery Connect, so the individual will receive credit for the work without contributing to team point totals. (So be sure to make up work missed if absent)
