

Home Projects 2016-17

Ms. Jalee and Ms. Marleen

A larger description and sometimes form will be provided the month the home project is due. Students will have a span of 1-2 week to bring in their home project and present it. Projects will be graded by a rubric which will be based on presentation etiquette and content with the exception of the August home project.

Month	Title/Type	Description	Presentation Time
August	Get to Know You	Brown paper bag with 5 items in it that tell about themselves. Students will teach the about who they are by sharing the items and why they are important to them. (Ex. Nail polish because they like to paint their finger nails; a sea shell because they love the ocean.)	Aug 17 – Aug 31
September	I Wonder...	A photo presentation about something students are curious about.	Sept 19 – Sept 30
October	In School Project For PTC	This will be a book report students do at school with the aid of the teacher, if needed, and presented to parents at parent teacher conferences.	October 17, 18, 19; at PTC
November	Family Tree and Biography	A family tree with or without pictures that goes back to their great grandparents. Students will pick a family member, dead or alive, and present a small biography on them.	November 14 - 18

December	North America International Festival	A picture presentation having to do with North America; animal, state, country, etc.; to be presented at the international festival.	Week of December 12
January	Book Report	A presentation on a book read by themselves or with the help of an adult. Students will pick from a list of ways to present the book.	January 23 – February 3
February	President Bio	Students will be assigned a president of the U.S. to do a picture biography about. Presidents will be assigned randomly.	February 20 – March 3
March	Mini Science Fair	Students will pick a scientific subject that interests them and use the Scientific Method to create a project to present at the science fair.	March 27 – 30; to be presented for school on the 30 th
April	Cultural	A picture presentation about something students have learned about in cultural during the past year. It can be anything from the animals learned in zoology to a type of weather learned in geography.	April 24 – May 5
