

Student Photograph Release

SCHOOL WEB SITE PHOTOS AND VIDEO

We follow strict rules in connection with the Maria Montessori Academy website and any class blog in order to protect the privacy and safety of pupils. For safety reasons, the school does not use student names on the school's website.

_____ Yes, you have my permission to use my child's photo or video of my child on the school and class website.

_____ No, do not use my child's photo or video of my child on the school or class website.

COMMUNITY AWARENESS/PUBLIC RELATIONS PHOTOS

As we participate in our community, we sometimes have opportunities to provide photos of our students in newsworthy events. Photos may be used in the newspapers, school promotions, and in school brochures and fliers. Safety is always paramount, and staff checks all content before it is published. Children's photos featured in a school publication are only referred to by their first names if we feel it is necessary to use names. For safety reasons, the school prefers to keep student photos anonymous in its publications. The only exception to this rule will be events that empower a specific student by recognizing a great achievement, such as a citizen's award, scholarship or exceptional deed or action. In such an event, the school will notify the parent and student to ask for permission to use his/her last name in a printed publication such as a local newspaper. The school will never use the name of a minor on the school's website.

_____ Yes, you have my permission to use my child's photo in public relations materials.

_____ No, do not use my child's photo in public relations materials.

Child/Children's Name: _____

Parent/Guardian Signature: _____

Date: _____
