

Chaperones, thank you for coming on
a field trip to the nature center!

*We have a program packed with two hours of fun
for everyone. We are happy to have your help.
Please be ready to help by:*

- *Leaving all younger and older children at home.*
- *Keeping children actively participating and focused on the program. A hand on a shoulder works well to re-focus their attention.*
- *Turning off or silencing all cellular phones. If you must take a call, please excuse yourself from the group and take the call where it will not distract the students.*
