

Dear parents,

I am working very hard to arrange internships for each of your students and I could use your help. Internship week is February 10th through the 14th, which is our intercession week. During this week students have the flexibility to select one day to not come to the school, but rather experience the “world of work.” I hope to have contact with each of you to secure a situation that is exciting & positive. Parents will be responsible for arranging transportation to and from the internship site. I am working with our school lawyer to draw up the proper paperwork for this exciting opportunity. More information will be forth coming.

Ms. Emily
