Period _____

CTE Introduction
Study Guide
Cycle III "Power"
Jan 21

Overview: Teamwork, cooperative learning and collaborations are skills necessary to be a good team player. This week you will be evaluating, through participation in a hand-on team activity, your skills as a team player and how to better develop them. You will then utilize these skills to work as a team to prepare for your Blend Tec exploration activity to be executed next week.

Guiding questions: How cooperative are you in a learning environment?

Check list:

___ Input Dec 21st: Ms Valeri's presentation

___ Output record the following team skills –

Cute the terms below out and paste into your output. Circle the two you feel come easily to you.

Listening: paying attention & taking into account what is being said

Questioning: asking questions to clarify or understand

Persuading: trying to bring others to your point of view

Respecting: having regard or concern for others

Helping: providing assistance, info or other

Sharing: taking equal responsibility with other group members

Participating: taking part equally in the activity or task

___ Any time you have remaining you may meet in your groups and fill out your Blend Tec Exploration prep sheet.

___ Turn in your filled out study guide into Ms. Emily's inbox on top of her filing cabinet
