

College & Career Awareness
Career Development Activities 15 & 16
1-2-4 or More: A Smart Investment/Jobs of the Future

Overview: Stackable credentials are part of a sequence of learning that can be stacked over time to build up person's qualifications toward a career – and, possibly toward other careers that are more satisfying. For example, you get a high school CTE Pathway Completion in Health Sciences Medical Assistant then go to Utah College of Applied Technology College for a Certified Nurse's Assistant, which qualifies you to apply and be accepted to Weber State University for a Nursing Degree.

Essential question: What steps are your plans in obtaining more training or education after high school?

Checklist:

- _____ Record input
- _____ Read Monte and the World of Possibilities as a class
- _____ Record in your output postsecondary education levels beginning with high school
- _____ Watch the video <https://stepuputah.com/teentakeover/>
- _____ Record in your output whether you want to attend in-state or out-of-state and ideas on how you can pay for postsecondary education
- _____ Create a fortune teller and work with a friend to explore the possibilities of your future
- _____ Restore your environment and turn in this study guide.
