

Due October 12, 2016

List period & names of team members:

College & Career Awareness  
Project Based Learning  
Cord Mess

Calvin & Hobbes Comic by Bill Watterson

**Overview:** “Technology involves turning natural items into useful products. It is involved in all the products, inventions, and discoveries made by people. Technology can be summed up in one simple sentence. *It is the practical use of human knowledge.*”  
*Allen Pierce, Introduction to Technology*

**Essential question:** What are the benefits of a group with diverse members working together to meet a common goal?

Checklist:

\_\_\_\_\_ Open your Project Folder. Determine the job assignment so that each team member has a responsibility. Send your manager to get the materials for the first activity and check out one computer per team with the appropriate amount of headphones & splitter. (record material manager name & computer number of the board)

\_\_\_\_\_ Listen to the introduction to this resource:

<http://manufacturing.stanford.edu/>

click on “How Everyday Things are Made”

Skip intro & go to the Introduction

As a team, choose a product to watch on the navigation menu

\_\_\_\_\_ Brainstorm ideas for a solution to the challenge. Use the computer to conduct some research. Use Ms. Emily’s blog to access additional resources.

<https://www.pinterest.com/debraspielmaker/project-based-learning-cord-mess/>

\_\_\_\_\_ Begin to fill out the Engineering Design Process sheet found in your Project Folder

\_\_\_\_\_ Submit materials list to Ms. Emily

Due October 12, 2016

List period & names of team members:

\_\_\_\_\_ Create a timeline table that includes each task (including brainstorming, research, selecting the best solution) and the names of those assigned the responsibility. (You have Tuesday Oct 4<sup>th</sup>, Thursday Oct 5<sup>th</sup>, and October 10<sup>th</sup>. We will present on Oct 14<sup>th</sup>)

\_\_\_\_\_ Complete a prototype

\_\_\_\_\_ Test & Improve prototype

\_\_\_\_\_ While some team members are working on the product, others can begin to work on the presentation of the product (Prezi, PowerPoint, Brochure, Poster)

- State the problem
- Present prototype
- A timeline or flow chart of the process

\_\_\_\_\_ Present (each member needs to be part of the presentation)

\_\_\_\_\_ Wrap up – record input for this project  
record output, select one manufacturing career, list its title and a job description, salary, education/training
