

Math Autobiography

Write a 3 paragraph essay describing your life as a math student. Go back as far as you can remember.

Write about...

- When do you first remember using math?
- A triumph and a disaster. (memorable mathematical experiences)
- What you like about learning math?
- What you do not like about learning math?
- What you need to learn math?
- How you feel about math in general?
- Why is math important?
- How do you perceive yourself as a math mathematician?

Make sure you answered all the questions!
