Math IIX Study Guide
Finding and Interpreting Slopes of Lines

CAN I:

• **Applying Slope and Slope Intercept form to real life**

• **Understand systems of linear equations.**

_____ 1. The following vocabulary terms will be discussed during your course of study this week **Slope, intercept, coordinates; system of linear equations, unique solutions**

Week 16 (December 15 - December 19)

_____2. Monday Night Homework: **Math Book Chapter 4 Review 1-18 All**

_____3. Tuesday Night Homework: **Khan Academy Slope and Triangle Similarity You can bring half a page of notes for your test.**

_____4. Wednesday Night Homework: **Math CHAPTER 4 TEST Homework Chapter 5 Quick Checks Pg. 191-192 1-3 All**

_____5. Thursday Night Homework: **Khan Academy Watch Ordered pari solutions of equations; Ordered pair solutions of equations 2; Ordered pair solutions to linear equations**

Complete the following in class:

_____ 1. In Class Activities

_____ 2. Math Journal Entries

_____ 3. Vocabulary

MATH TEST ON WEDNESDAY

Please turn in all work on dates listed. Anything not turned in on date listed gets partial credit. Anything not turned in gets no credit.
