

Party Planning Presentation

Assignment Overview:

Your birthday is coming up and you have been given a budget \$100 to plan out your party for your six (6) guests. Your goal is to plan the perfect party for your guests so that it is as enjoyable as possible. Any choices are valid from the list or you could find another option not listed.

After you have selected your options, create a power point presentation to showcase what your party. You will need to calculate the total amount of your budget spent in each category and present it in a table or list it on the corresponding slide.

At the end of the presentation, you will need to create a Bar Graph showing the amount spent in each category from the budget.

Below is the rubric for the PowerPoint:
