How to use

This is a game to practice reading nonsense words. Can be played with up to four players. Print, cut and play. Place one word card face down on each box with a die. Put the rest of the cards in a pile beside the game board. Roll a die. The student reads the card with the corresponding number. If they read it correctly (I like to have them practice reading it whole word and not sound it out) They get to keep the card. If not they put it back. If they keep the card they replace it with a card from the pile. Student will be the most cards at the end wins.
